

Architectural Security Barrier

The Palisade-KC Fence System provides an attractive solution for pedestrian-resistant security barriers. Utilizing high-strength steel components, this affordable security fence system is configurable to meet a wide range of risk-based requirements.

Recommended for:

- Utility/Public Works
- Commercial Perimeters
- Sports Facilities
- Military Sites
- Public Facilities
- Schools
- Transportation Facilities

BENEFITS

Deter and Delay

The Palisade-KC system presents an architecturally-pleasing security barrier design that deters potential attacks with pale designs to discourage scaling and delays intrusion with high-strength steel construction designed to withstand impact.

Fast Installation

Because of its unique rail support, this security fence can be installed in as little as half the time required of conventional systems that are set between posts.

Security Integration

This barrier solution can be integrated with Intrusion Detection and other electronic security components, protecting cabling through a raceway of steel rails within the framework of the Palisade-KC Fence System.

Long Service Life

High-quality galvanized steel is coated with our exclusive super-durable, Architectural Grade Powder Coating, providing the industry's longest-lasting protection.

The Fast-Installing Security Fence System

Panel Configurations

Pinnacle

Defender

Panels

Panels feature strong and secure steel pales, available in a full range of top designs, depending on the security and architectural requirements. With standard heights of 8', 10' and 12', Palisade-KC is an effective and attractive security barrier.

Posts and Rails

Panels are installed on rails in front of the posts, allowing for a finished appearance that is seamless for fence lines of any length. This configuration allows for fast installation – and means that exact post spacings are not a requirement!

Gates

Choose from a wide range of gate styles, including pedestrian and drive swing gates, as well as slide and cantilever gates.

Coating

Palisade-KC panels and gates are manufactured with galvanized tubular steel, then protected by Kingcats CN's exclusive Super-Durable powder coating. This coating provides longer protection from U.V. rays and salt spray than either E-Coat or standard polyester coatings.

Warranty

Palisade-KC is backed by a 15-Year Manufacturer's Warranty, giving you the peace of mind that the world's leading producer of fencing stands behind this product.

Palisade-KC Technical Data

Standard Configuration				
Panel Height	Pales	O/C Spacing	Rails	Posts
8	13 ga.	5-15/16"	2" TS x 14 ga.	4" TS x 11 ga.
10	13 ga.	5-15/16"	2" TS x 14 ga.	4" TS x 11 ga.
12	13 ga.	5-15/16"	2" TS x 14 ga.	4" TS x 11 ga.

Note: Specifications subject to change based on specific project requirements.
